

## July 2021 Foxhunt

The July foxhunt was held Sunday, July 11th. The fox was Robert, WA6FBA.

There were two teams for this hunt.

1	Pete, K6VVR, Jerry, KF7FPD, and Gary, K6JXM
2	Jeff, WB7RFY, Keith, KJ7GTX, and John, WB9VGJ

The results of the hunt were:

Finish	Team	Time
1	2	28 min.
2	1	44 min.

WA6FBA ended up in a small parking area along S. McCormick St., just below the Arizona Pioneer's Home near downtown Prescott. He said he had a place picked out a mile or two away from there, but noticed this spot on his way and decided to hide there.

For our winning team, this was one of the shortest times we've ever had on a hunt. Also, I only took two bearings with the SigTrax app on my cellphone (see the picture using the link below). The first was taken at the starting point went right through the home. We drove directly south to Gurley St. and then east and then south again to the home following the signal, not needing to take another bearing. I took the second bearing from the parking lot at the home, and it pointed east. We were getting the same signal strength in most all directions, indicating we were very close to the source. We drove down the hill from the home and found the fox parked along the street just below the home.

We went to the Prescott Junction for after-the-hunt socializing and telling of tall tales.

We invite anyone interested in foxhunting, especially anyone who has not done it before, to join us. Those new to the hobby can ride with an experienced hunter. We always have a good time, win, lose or draw.

73,

John, WB9VGJ
